Company Profile

Hammond Electrical - 2022

About Us

We are a well-known electrical company based in Kewdale, we provide our customers with quality and professional electrical contracting and maintenance services. As a privately owned West Australian company, and with nearly 50 years in the industry, we are able to offer a range of electrical services, installations, upgrades, LED lighting, maintenance, contracting and electrical installations for the modular building industry. Over our years in the industry we have built a strong customer base and have experience in the commercial and retail industries as well as servicing our residential customers.

Our team of professional and skilled workers is led by a strong management team that has many years of experience and expertise in all areas of electrical contracting and maintenance. We are fully committed to giving our customers the very highest professional service possible.

Winners of the 2008 Safety Achievement Award from Western Power we are constantly improving and ensuring Safety Awareness within our company.

Starting out as a small family business in 1972, In 1987 Ken Hammond took over the family business and, through his leadership and experience, we have developed many strong and lasting relationships with our customers.

As market leaders in modular office building installations, electrical maintenance, installations and contracting in Perth, we pride ourselves on the relationships we have established with our long-term and repeat business customers. These relationships have been built over many years of quality and reliable service. By taking the time to understand our customer's individual requirements we ensure we provide them with the best solution based on our technical knowledge and experience.

Our Services

Our goal is to provide our customers with the best quality products and with our team of experienced and passionate tradespeople we pride ourselves on building great customer relationships.

Our experience in modular building installations, contracting, electrical maintenance and installations is extensive. No job is too big or too small and our services range from the simple task of installing a light switch to more challenging projects such as providing electrical fit outs.

We work closely with our customers, ensuring that the task or project is completed on time and on budget, using the highest quality products available. We also advise our customers of any cost saving measure that can be utilised and can assist with any safety requirements. By using our skills and experience we build ongoing and lasting relationships with our customers.

- **Modular Office Buildings**

Modular Office Building electrical installations is a core sector of our business, so our knowledge and expertise in this area can be relied on. Having been involved in the pre-installation of electrical systems in the modular building industry for over 40 years we have become leaders in this field.

Our extensive industry experience includes providing electrical contracting work for:

- Extensive Office Buildings
- Large industrial kitchens
- Switch rooms
- Mining camps amenities

Our electrical installations for modular buildings are pre-wired in Perth and ready to be ship-out across the country.

By evolving our solutions alongside the Modular Building Companies, and by working closely with our customers, we have created the highest standard of energy efficient buildings. Some of our customers include BHP, FMG and RIO TINTO.

We work closely with our customers, from initial design and engineering through to the site installation. Our standard of workmanship and quality control methods ensure, regardless of the size of the project, that when we hand over the building it is of the highest quality.

Our project experience highlights are:

1. Switchrooms for Exxon PNG, Daly Camp, Worsley expansion, Juna Downs, Yandi
2. Western Power – relay and switchrooms
3. FMG – Kangi Camp
4. Hope Downs Expansion
5. Camp Lambert
6. FMG – 1500 man Dry Mess
7. Rio Northern Link Expansion
8. Ravensthorpe Nickel infrastructure
9. Department of Immigration

ELECTRICAL PTY LTD

- **Electrical Maintenance & Installations**

Backed by our experience in the electrical installation and maintenance industry we are committed to providing excellent customer service and value for money. You can be sure that your project will be managed professionally and completed on time, on budget by our team of skilled tradesmen.

We specialise in all residential and commercial areas of electrical installation and maintenance including:

- Local Government contracts
- Schools and shops
- Factories
- Office fit outs and refurbishments
- LED Lighting for car yards, warehouses and offices.

Our experience has shown that maintenance can be a costly component throughout a product's life cycle. We use only the best quality products on the market and focus on delivering excellent value for money by providing the lowest 'total life cost'.

After the initial installation many of our customers engage us to undertake all of their ongoing maintenance work. Our dedicated service team is committed to servicing these customers, together with a reliable fleet of fully stocked service vehicles; we are able to respond to calls quickly, and efficiently.

Our Project Highlights are;

1. Child Protection and Family Services, Royal St East Perth – 2 level fitout, 2000sqm, \$140,000
2. Refurbishment of the Tamala Park Tip Site Office, 800sqm, \$40,000
3. Indigenous Business Association office fitout, 600sqm \$30,000
4. M&PS Rivervale office Refurbishment, 600sqm, \$20,000
5. Electrical upgrade and works at 300 Collier Road, Bassendean, 3000sqm, \$110,000
6. 179 St Georges Tce, 2 level office Refurbishment, 1000sqm, \$75,000
7. Herb Graham Recreation Centre, Electrical upgrades to Bathrooms and Wet Areas, \$65,000
8. Bradley Bailey Legal, Perth CBD, Office Refurbishment, 800sqm, \$8,000

- **LED Energy Saving Lighting**

With many years' experience in the electrical service and installation industry we now have the ability to offer our customers in Perth LED Energy Saving Lighting. With our team of experienced tradespeople we can assist in changing your business over to this exciting new lighting option.

We can upgrade your business from the existing lighting to LED Energy Saving Lighting. We will come out and assess your current set up and provide a quote for the upgrading.

Some examples of the cost savings by switching to LED technology today are outlined below.

- Total cost \$41,052 for install of new LED lights
- Actual saving of \$2,000k per power bill, with these LED installed
- Equates to saving of \$12,000 per year on energy saving
- LED install therefore paid for itself in 3.5 years
- \$12,000 saving for remaining 12 years of life of lamp (assume operating 6 days per week, 10 hours per day, lamp life 50,000 hours)
- Therefore, total saving after investment is \$120k

Key Personnel

Ken Hammond **Managing Director**

With over 40 year's experience in the electrical industry, Ken has gained a wealth of knowledge after starting on the tools and then moving onto estimating and managing staff before taking over the family business in 1987. Under his guidance the business grown from small works to large projects in the modular industry, from complex switch rooms, to large modular kitchens, and administration buildings, as well as modular facilities for a large number of mining camps. Ken oversees the whole process from estimating to project management, to ensure that every job is completed to the highest of standard.

Gary Clifford **Project Manager**

Gary has been with Hammond Electrical for over 15 years, and during his time has grown from an Electrician, to senior site supervisor and currently Project Manager. As a qualified Section 44 supervisor Gary has also spent time supervising mine infrastructure installations.

Gary has overseen some of our largest projects from start until completion, and is held in high regard with our clients.
